We are focused on our journey to become the world’s favorite travel company for everyone we interact with, from our guests, to our owners and franchisees, to our shareholders and associates. At the same time, we remain true to our core values which have stood the test of time: put people first, pursue excellence, embrace change, act with integrity and serve our world.

The Marriott name is on more than 4,100 managed and franchised properties in 79 countries and territories around the world, and innovation and growth remain key drivers to our success. But along the way, we have also been steadfast in our commitment to people and the planet. Through the “power of travel,” we create jobs, support local business and grow the local socioeconomic and tourism infrastructure.

Our sustainability strategy is driven by a wide range of initiatives that have been fostered throughout our history of giving back to communities and evolving our operations to be more sustainable. This includes efforts like creating resource-efficient hotels, providing job readiness training to underserved youth, empowering diverse business owners through our supply chain, advocating for visa and entry policies that facilitate travel, training our associates on human rights and the protection of children, and supporting innovative conservation initiatives.

GOALS/TARGETS
To grow and manage our business in a sustainable way, our goals include:
- Hiring, retaining and motivating associates through innovative approaches to recruiting, training and development, and performance management.
- Creating programs and opportunities that not only benefit our communities, but also help strengthen our business.
- Demonstrating how responsible hotel management can create economic opportunity and be a positive force for the environment.

†Past performance does not guarantee future results. This report contains forward-looking statements, including those we identify with a † symbol, and our actual future results could be very different. We discuss risk factors that could affect these results in Marriott’s filings with the U.S. Securities and Exchange Commission, including our most recent reports on Form 10-Q and Form 10-K.

Unless otherwise noted, this report is based on data from Marriott’s 2014 fiscal year and reflects the operational performance of our company-operated properties, which include owned, leased and managed properties, and exclude rooms from franchised, franchised unconsolidated joint ventures and timeshare properties.
