Discover Our New Breathtaking Event Venue

Overlooking the Potomac River, the Riverview Ballroom is a modern and unique addition to Gaylord National Resort & Convention Center. The ballroom is designed to take advantage of the amazing views of the capital region, and features a curved roof supported by a mast and rigging structure, referencing the nautical history of the Potomac River. The 16,000 square foot meeting space sub-divides into 8 different configurations, allowing for maximum flexibility. Unique within the industry, the ballroom also boasts 270 degrees of floor-to-ceiling glass.

- Ballroom – 16,000 sq. ft.
- North Terrace – 4,440 sq. ft.
- South Terrace – 2,263 sq. ft.

Specifications are based on blueprints/artist renderings and are subject to change.
