## Ridgecrest California Fantastic Film and Photo Locations!

SpringHill Suites by Marriott Ridgecrest would like to welcome all Film Locations Managers, Production Teams, and Film industry staff to one of the most popular areas for film locations and natural photo shoot backgrounds in California and North America!

Boasting several historic ghost towns and amazing natural backdrops such as the Trona Pinnacles, Cuddyback Dry Lake Bed, Red Rock Canyon, and the Olancha Sand Dunes – the Ridgecrest California area and East Kern County is a perfect choice for your next production.

SpringHill Suites by Marriott Ridgecrest is film friendly and has provided a number of large and small productions a home away from home since it's opening in March of 2008.

Our area has been the backdrop to many television commercials as well as several major motion pictures such as Hidalgo, Dinosaur, Iron Man, Land of the Lost, and Planet of the Apes.

We encourage Locations Managers to experience what Ridgecrest California has to offer for your next production! Our sales staff is always ready to assist you with your lodging and temporary production office needs. Working hand in hand with the Ridgecrest Regional Film Commission we are happy to provide you with any information you may need regarding the Ridgecrest and East Kern County California areas specifically related Film and Photo Production.
