**JW MARRIOTT LAS VEGAS RESORT & SPA SETS THE STANDARD FOR
THE LAS VEGAS GOLF EXPERIENCE WITH THE EXECUTIVE GOLF DESK**

Resort guests enjoy preferred status on eleven nearby outstanding courses

Las Vegas, Nevada – As part of the resort’s Personal Planning Center, designed to provide personalized assistance to guests before arrival and during their stay, the JW Marriott Las Vegas Resort & Spa offers an Executive Golf Desk where golf specialists reserve priority rounds on eleven of Las Vegas’ outstanding courses that surround the property.

Golfers receive the royal treatment at the JW Marriott Las Vegas’ Executive Golf Desk. The resort’s formal partnership with Tournament Players Club at the Canyons ensures that guests enjoy preferred tee times throughout the year. As co-host to the PGA Tour’s Frys.com Open, guests like the fact that they get to ‘play where the pros play.’

The TPC Canyons is an 18-hole championship golf course featuring challenging tree-filled areas, elevation changes, steep ravines, and a canyon lake. The Canyons is located approximately 0.4 miles from the Resort.

To enhance that ‘PGA Tour’ feeling, the Canyons recently introduced its new Caddie Program, managed by Caddie Master, the specialists behind such programs at Pebble Beach, Augusta National, and TPC Sawgrass. Golfers have two options. The Full Caddy provides walking caddie services in addition to offering insight into tournament and course history with advanced advice and strategy. The Fore Caddy option provides all the same services except carrying bags and is complimentary to all golfers.

The club also introduced the PGA’s Tour’s award winning TOUR Academy offering a full schedule of two, three, and five day golf schools, a private lesson program, and comprehensive player development programs for golfers of every skill level. Designed to provide an experience like no other, the TOUR Academy features state-of-the-art technology, including computerized analysis and take-home game plans for improvement on both CD and written form. This, coupled with instructional programs that consist of highly personalized attention to the unique needs and skill level, ensures that each player leaves with a new and improved game plan.

A sampling of additional golf course experiences that are available to guests includes:

- Angel Park Golf Course – Angel Park has two 18-hole golf courses, the Mountain course and the Palm course, both designed by Arnold Palmer. The Mountain course takes players toward the Red Rock Mountains and through desert terrain and includes occasional forced carries and fairways guarded by bunkers and flowing grass. Angel Park is located 0.2 miles away from the Resort.
- Arroyo Golf Course – Located approximately six miles from the Resort, the Arroyo is Red Rock Country Club’s newest Arnold Palmer Signature golf course and is as visually striking as it is challenging.
- Bear’s Best Las Vegas – Located approximately eight miles from the Resort, Bear’s Best is a Jack Nicklaus golf course. Each green was designed using the best holes from his 200 golf courses around the world.
- Las Vegas Paiute –Paiute includes three 18-hole championship golf courses designed by Pete Dye, the only Dye-designed golf courses in the state of Nevada. The course is 14 miles from the Resort.
- Siena Golf Club – Lee Schmidt and Brian Curley, co-designers of the layout, had the goal of building a challenging yet very playable layout. Siena takes you over rolling fairways and greens that are guarded by over 97 bunkers throughout the course. Siena is located approximately eight miles from the Resort.
- The Badlands Golf Club- This Johnny Miller designed course has three distinct nines: the Desperado, Diablo and Outlaw courses. Featuring 27 holes of breathtaking beauty set against majestic Red Rock canyons with deep-flowing arroyos, canyons and natural washes surrounding this desert treasure. It also features scenic views of the entire valley, unequaled by any golf course in Las Vegas. Badlands is located one mile from JW Marriott Las Vegas.

In addition to customizing guests’ golf experience at the first Executive Golf Desk in the Las Vegas area, the Resort’s Personal Planning Center is able to provide a host of services to make their stay at the luxury resort even more enjoyable. The Personal Planning Center is located near the registration desk and offers guests access to an on-site rental car company so there is no longer need to leave the resort to pick up a car. It also includes a concierge desk to book off-property and on-property reservations and a business center which offers a bevy of useful business services.
