

GOLF COURSE DESCRIPTIONS

THE BLUE MONSTER COURSE YARDAGE: 7334 | SLOPE / RATING: 76.9/146

Home of the World Golf Championships - **CA Championship**, the Blue Monster has hosted the prestigious PGA Tour event for the past 45 years. In fact, virtually every great name in golf has had a moment of glorious personal triumph on this world-class track. Originally designed by noted architect Dick Wilson, over the past 20 years, the Blue Monster has been modified and updated to meet the demands of the PGA Tour by three-time Doral Champion ('80, '81 & '92) and hall-of-famer Raymond Floyd and world renowned golf teacher, Jim McLean. Most recently the greens and bunkers were modernized under the watchful eye of the PGA Tour for the WGC-CA Championship whose inaugural event was played in 2007. At 7,334 yards from the tournament tees, and with a series of strategically placed bunkers, both length and finesse are needed to score well on this historic course. The Blue Monster features long fairways, undulating green, a deep Bermuda rough and a unique assortment of water hazards. The famous 18th hole, with its signature fountain, was ranked by GOLF Magazine as one of the Top 100 Holes in the World.

THE GREAT WHITE COURSE YARDAGE: 7086 | SLOPE / RATING: 75.1/143

The Great White Course is the only golf course of its kind in the Southeastern United States that utilizes coquina -- crushed shells -- as the primary design element on every hole. In designing the Great White, Norman blended strategically demanding fairways with hundreds of palm trees. He then laid out the course in a manner where water comes into play on 14 of the 18 holes, which makes for a challenging, but picturesque Great White Golf Course. Host to the PGA Tour's Franklin Templeton "Shoot-Out" in 2000, the Great White was rated as the best new golf course of 2000 by the National Golf Foundation.

THE JIM McLEAN SIGNATURE COURSE - YARDAGE: 7034 | SLOPE/RATING 75.6/153

The Jim McLean Signature Course joins the infamous Blue Monster and the Great White as the third of Doral's premier courses. It is unique among courses in the Southeast because it presents a variety of challenges that include three of the toughest starting holes in golf, a series of phenomenal par 3s, and "The Bermuda Triangle" of the 13th through 15th holes. Five sets of tees let golfers from novices to champions decide how difficult they want the course to be - but no matter where they start, they'll have earned a real sense of accomplishment every time they finish

THE GOLD COURSE - YARDAGE: 6543 | SLOPE / RATING 72.5/133

PGA Tour legend Raymond Floyd redesigned this course to follow a traditional Florida layout, incorporating gently contoured greens, strategic bunkering and water surrounding 16 holes. The course features narrow, tree-lined fairways and finishes with a dramatic par-4 island green on the 18th hole. This course hosted the 1999 PGA Qualifying School finals. The greens were recently renovated in summer 2009 featuring Tif Eagle Bermuda Grass.

THE RED COURSE YARDAGE: 5904 | SLOPE / RATING: 69.4 / 133

The Red Course forces golfers to use strategy and shot placement, rather than driving for show. Featuring 14 water holes with fairways winding around several lakes, the course provides breathtaking beauty and exhilarating challenges, without intimidating length. This course hosted the LPGA in 2001 for the Office Depot Championship.
