

We are Dedicated to Environmentally Conscious Hospitality Operations

THE GREENING OF MARRIOTT

"We aspire to be the global leader that demonstrates how responsible hospitality management can be a positive force for the environment while creating economic opportunities around the world."

"On this planet, we're all visitors, or guests. I prefer guests because that's what people who visit our hotels are."

— J.W. Marriott, Jr. Chairman and CEO, Marriott International, Inc.

Our Pledge to the Environment and Community

As part of ongoing efforts to make Portland Oregon, a healthier place to live, work and do business, the Portland Marriott Downtown Waterfront Hotel will seek first to purchase equipment, products and materials that are recyclable, made of recycled content and/or reduce waster. Whenever possible, we will work to mitigate fuel waster and create demand for products harvested in an environmentally sensitive way, and by purchasing local products from like-minded vendors.

We Are Certified

This property meets the Green Seal Environmental Standard of U.S. Lodging Properties for waster minimization, water and energy efficiency, hazardous substances handling and environmentally responsible purchasing.

This spring the Portland Marriott Downtown Waterfront was awarded the coveted Green Seal Certification.

Our hotel is the third hotel in Portland area to achieve this honored recognition and the only west coast Marriott.

Public Transportation

- Located blocks from the Portland Streetcar, the Metro Area Express (MAX) light rail) and local bus service provides low cost transportation options for our associates and guests.
- Free use of public transportation in downtown "Fareless Square"

Recycling

- We have a full-time associate dedicated to collecting, sorting and recycling the following:
 - Paper, cardboard & newspaper
 - Glass, plastic, metal products
 - Composing of food waste
- All of this recycling is done "behind the scenes"
- We are an active member of the Association of Oregon Recyclers hotel operations and utilities
- Energy efficient fluorescent lighting through-out the hotel
- Energy efficient A/C units in each room
- Amenity donations made to local charities
- Lights are turned off when not needed
- Digital thermostats in all areas
- Pool and Spa use Saline Solutions (ECOLAB Pure Comfort™), therefore reducing the use of hazardous chemicals
- The majority of cleaning chemicals used are "Green Seal" certified
- 4% renewable wind power

Guest Room

- Guests can choose to participate in our linen and towel reuse program which saves water and energy as well as reduces detergents being release into the environment.
- Water saving shower heads, toilets and aerated faucets in all guest rooms and public space

Proud Recipient of the Following Awards
