Initiatives

Doing Our Part...

All hotel guests are encouraged to reuse towels and linens whenever possible to save on unnecessary water usage.

Marriott Rewards Members earn extra points by opting out of housekeeping service and reusing their amenities and linens. All guest rooms and meeting rooms have recycling containers to promote recycling whenever possible.

Guests arriving in electric or hybrid powered cars receive free valet parking during their stay.

We use GreenSeal™ certified cleaning products.

Our new to-go containers are eco-friendly and are designed to completely decompose in only 60 days.

For our cold to-go beverages we use specially designed bioplastic containers. These containers are derived from renewable raw materials such as corn and are 100% recyclable and biodegradable.

Five days a week our leftover pastries and guest amenities are donated to Rachel's Womens' Shelter.

To Preserve The Earth

Throughout the Courtyard by Marriott in downtown San Diego we have enacted a number of energy saving measures to help reduce our energy usage and do our part to lower our environmental impact on this planet.

Some of the measures we have enacted include:

- Use of occupancy digital control thermostats in our guestrooms
- Use of passive day lighting near windows in our public areas
- Use of water restrictors in our guest bathroom sinks
- Motion sensor lighting controls in our stairwells
