**San Juan Marriott Resort Launches Lobby Renovation**

**SAN JUAN, Puerto Rico – July 2011** – San Juan Marriott Resort & Stellaris Casino continues to keep up appearances with a full-scale lobby renovation, beginning on August 2011. By November, the \$2.2 million redesign will bring a completely new lobby and bar experience to the resort.

Already a favorite of locals and visitors alike, the focal point of the re-imagined lobby will continue to be the legendary bar “1309”. Ushering in a new, modern feel, the deep wood finishes, rich earth tones and textures, and sleek metal accents will create an atmosphere of warmth and opulence for guests enjoying the Latin rhythms of a live band or a cocktail of choice.

The rest of the lobby’s public space will feature customized areas or “zones”, which will allow guests the opportunity to socialize with friends or enjoy an intimate conversation. Additionally, communal tables, wired for business and social networking, will make an ideal gathering place for small impromptu meetings or for a leisurely online chat with friends.

“The San Juan Marriott’s lobby renovation will continue our evolution from an iconic, local landmark to a chic oasis in the heart of Condado,” said General Manager Hans-Georg Roehrbein. “We’re committed to providing the ultimate Caribbean cosmopolitan experience – an undertaking which encompasses not only outstanding customer service but extraordinary amenities and services as well.”

The resort’s latest revamp comes just years after a \$35 million room overhauls and hot off the recent \$2 million renovation of La Vista Latin Grill and La Isla Grill and Pool Bar. Continuing its transformation from classic to modern luxury, the renovation will create a public area experience unrivaled in Puerto Rico.

Experience a tropical beachfront setting, amazing picture perfect views along the Atlantic Ocean, multiple sundecks packed with palm trees, lounge chairs, hammocks and cabanas, a swim up bar and so much more. The [San Juan Marriott](#) provides a relaxing environment, luxurious guest rooms and suites, full casino, invigorating spa, two elaborate swimming pools, meeting facilities, six dining options and a lobby lounge for nighttime entertainment.
