

San Juan Marriott Resort creates a website that turns “How To” into “I Do”
Destination Weddings Simplified at the San Juan Marriott

SAN JUAN, Puerto Rico – Leave it to the wedding specialists at the San Juan Marriott Resort & Stellaris Casino to solidify their commitment to weddings with the launch of a new website, www.sanjuanweddings.com, dedicated solely to the pursuit of destination wedding day bliss.

The San Juan Marriott Resort designed www.sanjuanweddings.com to serve wedding planners and do-it-yourself brides alike in order to help streamline the destination wedding planning process and provide all the initial information at their fingertips. The website takes visitors from appetizers to accommodations and flowers to facilities, all in one easy to navigate location.

“Planning a wedding can be a challenge regardless of the location. Hosting approximately 60 weddings a year, we understand the intricacies and have created a great tool to bring our knowledge of weddings all to one place - just type in the web address and de-stress,” commented Omar Negron, Associate Director of Catering Sales at the San Juan Marriott. “The site takes users direct to our RFP forms, provides sample menus, visuals, info about our chefs, direct links to book hotel rooms, wedding planning check lists and more.”

While the San Juan Marriott Resort’s experienced, certified wedding planners can arrange every detail of the special day, www.sanjuanweddings.com even includes a list of experienced local vendors. All of the resort’s years in the wedding business have afforded them the opportunity of being able to point out the island’s best and brightest cake makers, florists, photographers, videographers and more.

The San Juan Marriott offers their guests a full spectrum service from planning to cake cutting and everything in between. Weddings are about details small and large. The San Juan Marriott has created the perfect tool so the bride, her planner, or both can quickly sail through the vast sea of decisions and arrive at the final destination of “I do” without all of the “oh, boy!”

The San Juan Marriott Resort & Stellaris Casino recently completed a multi-million dollar renovation and provides guests newly designed, luxurious guest rooms and suites, a full casino, invigorating spa, two elaborate swimming pools, meeting facilities, six dining options and a lobby lounge for nighttime entertainment. Experience a tropical beachfront setting, picture perfect views along the Atlantic Ocean, multiple sundecks packed with palm trees, a swim up bar and so much more. The San Juan Marriott offers a prime location just five miles from the airport with immediate access to San Juan’s fashionable shopping, dining, adventure, nightlife, historical and cultural landmarks.
