

Environmental Policy

To achieve our desire to be recognised as the regions leading hotel Meon Valley, A M Marriott Hotel & Country Club and all of our Associates are committed to controlling and minimising the impact of our business dealings on both the local and global environments.

Success will be achieved by:-

- Focus on objectives that directly impact the environment.
- Set realistic targets within realistic time scales and strive to achieve them.
- Minimise waste generation within the hierarchy of reduce, reuse, and recycle.
- Recycle 95% of the Hotel's total waste stream.
- Monitor energy and water usage and challenge unexpected consumption.
- Reduce the overall energy consumption by 3% year on year.
- Replace inefficient equipment with energy efficient alternatives on normal end of life replacement.
- Incorporate energy efficient and eco friendly initiatives into new or future refurbishment projects.
- Promote a culture of energy conservation and waste reduction to our Suppliers, Associates and Guests.
- Foster relationships with similar businesses within the local area to share knowledge and experience of best practise.
