

GOJA

THE WATER NYMPH

The most beautiful things in the world cannot be seen or even touched, they must be felt with the heart.

Gojas go out at night to wash their clothes by hand in the water and lay them in the moonlight. The tradition says whomever manages to get one of those pieces of clothing will be fortunate all their life.

Soak up the sultry nature of an evening at Goja Rooftop Experience and try to catch her on a full moon night. She will appear under the waterfall combing her golden hair and dancing to the tunes of captivating music.
