

Environmental Plan

Courtyard by Marriott Linz

We are an ecological company and take care of the serious responsibility for our environment. We want to preserve a beautiful and healthy ambience also for the next generation. It is important for us to involve also our guests actively to inform them about the significance of environmental protection. Our activities want to achieve, that pollution control will be continuously improved.

The following procedures and areas are most important for us:

- We **inform our guests**, employees and the public about our environmental activities.
- **Motivation of our employees** to environmental action through periodical trainings and the possibility to assist actively at the implementation of the environmental program.
- **Invitation to guests to assist actively** at the implementation of the environmental program.
- **Efficient use** of energy and water.
- We use renewable raw materials and **environment-friendly products**.
- We use products and service features **from our region**.
- We prefer **products with environmental awards**.
- We **separate not avoidable waste** and take care of the environment-friendly recycling.
- We **avoid water pollution** through the use of environment-friendly cleaning agents.
- We **avoid the use of hazardous materials** during renovation processes.

COURTYARD[®]

BY MARRIOTT

Linz

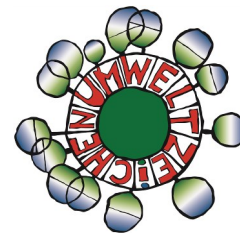

To make our environmental achievements open to the public we try to comply with the requirements of the Austrian Eco-Label.

With the points of the Austrian Eco-Label for lodging companies the biggest damage to the environment in the 3 periods of the life cycle of services (purchase, supply, disposal of waste) should be kept as small as possible.

These are our goals:

- Reduction of energy
- Reduction of water consumption
- Reduction of waste
- Preferred use of renewable energy and of environment-friendly materials,
- Promotion of environmental communication and education

To reduce the environmental damage we take care of buying products with the eco label. We inform our guests about the possibilities to support our environmental goals.
