

# OUR SUSTAINABILITY STORY

...FOR THE REGION, YOUR TRAVEL EXPERIENCE & OUR LOCAL COMMUNITY

## We are officially certified!

Transparency is particularly important to us. Globally certified with the sustainability label "Green Key" ([www.greenkey.global/criteria](http://www.greenkey.global/criteria)), we provide a reliable framework for a mindful travel experience - from our energy-efficient hotel building to daily processes such as cleaning with eco-friendly products.

## We love our region just like you do!

By consciously using resource-efficient, regional materials & ingredients, we aim to minimize supply chains and highlight the richness of our region. At the Oléo Pazzo Restaurant, we serve fresh water from Munich and set our focus on Bavarian culinary twists and seasonal dishes. In addition, the breakfast buffet offers a variety of local and regional products, presented with the Bavarian heart symbol. 🇩🇪

## We produce organically!

Located in the city center, our hotel has a cozy green summer terrace, which is not only ideal for relaxing, but also has an ecological herb garden. The harvest is used directly in the restaurant. Another highlight: In keeping with Oléo Pazzo's Mediterranean character, we have adopted olive trees from Italy and produce our own olive oil.

## Let's minimize waste together!

Only glass bottles and reusable cups are offered in our grab-and-go 'The Market'. At the front desk, the mobile check-in & out option reduces the use of paper. In the rooms, you decide how often you want to change your linen, and leftover soap is recycled. Finally, we take care to use food realistically by offering single portions at the restaurant buffet.

## Help us in making a positive impact!

Doing good & serving a greater cause can be fun! United by Marriott International's social vision #Serve360, we engage in a variety of initiatives throughout the year - from ongoing charitable donations to getting active. Here is some inspiration for you: With our team and colleagues from other properties in southern Germany, we collect litter in Munich's Luitpoldpark, engage in activities with disabled people, and work with the Sindolino youth farm in Stuttgart every year to prepare their farm for winter.

## Explore the region in a sustainable way!

Our hotel is closely connected to its beautiful surrounding nature. In order to provide you with a dynamic yet sustainable stay, we have partnered with bike shops nearby and the local transportation system. Information about local parks, nature reserves and other natural highlights is available at the front desk. Our team will be happy to help you rent a bike or purchase tickets!
