tölt

Tölt is the fourth gait of the Icelandic horse - fluid, unhurried, and unlike anything else in the world. It has carried riders across lava fields and glacier edges for over a thousand years, since the first Norse settlers brought their horses to Iceland.

Our cocktails are named after the horses and the Gods of the old Norse sagas. Sleipnir, Odin's eight-legged horse. Skinfaxi and Hrimfaxi, who carried day and night across the sky. The Valkyries who rode to battle on armored mares. Fenrir, the wolf whose unbreakable chain Gleipnir was forged from impossible things.

These are not just names. These sagas were told and retold during the dark winter months to entertain, enforce social laws, and establish cultural identity.
We simply put them in a glass.

cocktails

Sleipnir 3950
