SUSTAINABILITY FACTS

SUSTAINABILITY

Small Steps for a Bigger Cause

At Marriott Hotel Al Forsan, we are proudly Green Key certified and committed to creating a positive and sustainable impact wherever we do business. Through energy-efficient practices, waste reduction, and community support, we're dedicated to making a positive impact. From innovative initiatives within our hotel to partnerships with local organizations, we're committed to creating a brighter, more sustainable future.

SUSTAINABILITY IN EVENTS

- Use of reusable bottles and returnable containers to reduce waste
- Seasonal purchasing to support local producers and reduce environmental impact
- Emphasizing high-quality, responsibly sourced food options
- Reducing reliance on single-use packaging
- Providing eco-friendly straws
- Offering a variety of vegetarian and vegan dishes
- Implementing meticulous production planning to minimize food waste
- Repurposing surplus food and recycling materials where possible
- Comprehensive waste separation, recycling, and tracking systems
- Recycling of food waste

SUSTAINABILITY IN GUEST ROOMS

- Linen changes every three days or on request to conserve resources
- Towel refresh options designed to reduce water and energy use
- Infinity plastic water bottles made from ocean-recovered plastic and fully recyclable to create new bottles
- Smart room systems with automatic check-out and environmental sensors (temperature control)
- Bamboo amenities to further reduce plastic waste
- Slippers made from recycled corn husks
- Eco-friendly shampoo, conditioner, and shower gel dispensers
- Minimizing the use of disposable items and paper products

ENERGY & WATER CONSERVATION

- Energy-efficient building design to reduce consumption
- 100% LED lighting throughout the premises
- Water-saving fixtures in showers and sinks, alongside dual-flush toilets
- 12% of electricity from solar power
- Local sourcing of products
