In 1805, Josef Vitus Becher received the original Becherovka recipe written from the pen of Dr. Frobrig, which Josef then tuned to perfection. Becherovka contains approximately twenty types of herbs and spices from around Karlovy Vary, but also from distant continents. Becherovka's recipe is still secret and passed down from generation to generation, today only two people in the world know it. It is Becherovka that plays the main role in our cocktail, we have created a drink that perfectly represents the Czech tastes and the charm of the baths of Karlovy Vary. Vitus's Secret consists of Becherovka herbal liqueur infused with fresh apples, chamomile tea infused with cinnamon, vanilla and hazelnut syrup, fresh apple juice and fresh lemon juice. We serve the cocktail smoked with cherry wood and with homemade wafer. Enjoy the atmosphere of the baths of Karlovy Vary with the traditional flavors of Czech strudel (apple pie).
