HOTEL ECO-INITIATIVES AND SUSTAINABILITY PRACTICES

Irvine Marriott recognizes the critical importance of sustainable practices in today's world. We are dedicated to fostering positive social and environmental impacts through our operations and interactions with employees, guests, and suppliers.

Commitment to Sustainability

Irvine Marriott is committed to integrating sustainable business practices that not only benefit the environment but also support the communities we serve.

CULINARY

- Recycling of discarded glass from our restaurant. We partner with Next Generation Recycling to build circularity and ensure materials stay out of the landfill and ensures all items are remade into new products by partner brands with complete traceability.
- Partner with DYRT to repurpose our organic food waste for composting, average of 6 tons per month are diverted from landfills.
- Partner with Restaurant Technologies to recycle used cooking oil into bio fuel.
- Repurpose used coffee grounds to help support soil condition for exterior landscaping around the hotel.

EVENTS

- Sterno recycling collection program in partnership with EcoBurner. Reduces toxic gels and wicks, reduces waste to landfills, and is a safer alternative to the traditional single-use heating elements for our events catering needs.

GUEST ROOMS

- Partner with Clean the World to collect used soap bars and plastic bottles for recycling and divert from landfills, distributing over 21,000 bars of soap and supporting over 200 hygiene kits.
- Optional guest room linen and terry reuse program in pace to reduce water consumption.
- Recycling of paper, plastic, and glass in guest rooms.
- LED lighting and timed/motion sensor light switches in all guest room bathrooms.

GENERAL HOTEL

- All cardboard material is sorted and recycled by Allan Company and diverted from landfills.
- Filterra storm drain adjacent to our front driveway. The Filterra is an environmentally-friendly storm drain that uses bio-filtration to remove pollutants from rainwater before it enters our ecosystem on its way to the ocean.
- Electric vehicle charging stations located in guest and employee parking lots, saving over 72,000 in greenhouse gas CO2kg in 2025.
- Electric vehicle shuttle for airport transfers, saving over 18,000 greenhouse gas saving in CO2kg in 2025.
- The hotel is Green Key Eco-Rating Program Certified. Green Key Global is the hotel and lodging industry's sustainability certification program of choice.
    - Based on the results of a comprehensive environmental self- assessment, lodging facilities are awarded a rating from 1 to 5 Keys (5 Keys being the highest attainable).
    - Irvine Marriott received a 5 Key rating in August 2025
