The Disneyland® Resort offers a number of guides to help make your visit easier and more enjoyable. You can download them in a printable format online at the Disneyland® website, find copies at Guest Services locations, or visit City Hall to the left side of main Street U.S.A. Some attractions have auxiliary entrances for Guests with mobility disabilities or with service animals. These entrances are not intended to bypass waiting lines. Guests with disabilities and up to five members of their party may enter through these entrances. The rest of the party should use the standard queue. Some counter-service and merchandise locations have narrow queues formed by railings that may be difficult for Guests using wheelchairs. At these locations, we suggest that a member of your party order and transport the food or contact a Cast Member for assistance. Buses can accommodate various types of wheelchairs and ECVs. The standard lift size is 30" x 48". The wheelchair or ECV must fit the lift without being forced and be securely fastened in the restraints. We recommend that Guests using ECVs transfer to a bus seat while onboard. Monorail system can be accessed by the elevators and/or ramps provided at the Downtown Disney® station and Tomorrowland station.
