The Amman Marriott Hotel will light the Way to a Spectacular Event

Strategic lighting is the key to creating the perfect mood for your meeting or even changing the atmosphere during the event. The Amman Marriott Hotel’s LED lights will transform your venue into the ideal environment to deliver your message and capture the attention of all your attendees.

Changing colors on your stage, set pieces and ambient elements can occur in seconds with a touch of a button, making your event surprising and creative. LED lighting fixtures offer the flexibility to create a spectacular setting while achieving your meeting objectives.

In addition, LEDs use high-intensity power-emitting diodes to produce bright light with low heat, which is much safer than conventional lights. LED lights also use six times less power per light than normal lights. Make sure your next meeting is “green”...or red... or yellow...
