Upon successful completion you will be certified as a PADI Open Water Diver.

Enriched Air Nitrox ...from \$175.00

The PADI Enriched Air Diver Course is PADI's most popular specialty course, and it's easy to see why. Diving with Nitrox allows you to safely extend your 'no-deco' limits allowing you to spend more time on the bottom, especially on repetitive scuba dives. You can typically stay down longer and get back in the water sooner. This course will teach you what Enriched Air Nitrox is, the benefits and safety aspects of diving with Nitrox and how to analyze your tank and set your dive computer. This Specialty takes just a few hours to complete and can be completed as a 'dry' course if you're short on time, or a 'wet' course which includes a two-tank dive.

Advanced, Rescue and other Specialty courses are also available.
