

## The Florida *Green Lodging* Program

The Marriott Village at Lake Buena Vista embraces the opportunity to enhance the quality of life for future generations through environmental initiatives implemented by the Florida Green Lodging Program. This voluntary effort introduced by the Florida Department of Environment Protection (DEP) encourages the lodging industry to protect and conserve Florida's natural resources.

Environmentally friendly practices have been implemented throughout our hotels. The following represents some of the "green" initiatives we currently have in place:

- Conversion to LED and Compact Fluorescent lighting.
- Recycling of Cardboard, LED and Compact Fluorescent lighting.
- Guest room linens/towels not changed daily, unless requested.
- Separated trash cans in Lobbies for Guests to recycle aluminum, plastic and paper.
- Energy, Water and Waste Management conservation managed with Energy Partner, Ecova.
- Turning off lights in Guest rooms that are not occupied. Light sensors in storage closets.
- Use air filters with a Minimum Efficiency Reporting Value (MERV) of 8 or better.
- Use low or No-VOC paints and finishes.
- Ozone machines throughout the property to clean the air. 100% Smoke free property.
- Purchasing of Environmental Friendly Cleaning Products and Maintenance Supplies.

The Marriott Village at Lake Buena Vista will continue to work with DEP to implement additional "green" practices. Should you have any comments or questions regarding our commitment to the environment feel free to inquire at the front desk. We also encourage you to complete the Green Lodging Guest Stay Survey on-line at [www.dep.state.fl.us/greenlodging](http://www.dep.state.fl.us/greenlodging).
