Concept

June 16th, 1904 is the day that we follow Leopold Bloom, the main character in Joyce's 'Ulysses' as he travels around Dublin, musing on his life and unfolding experience. This book broke with convention. It didn't just tell a story; it explored consciousness itself.

June 16th, 1904 is also the day that James Joyce went on his first date with his future lover, inspiration, and life companion, Nora Barnacle. They soon defied convention, refusing to marry but living together as self-imposed exiles in Europe.

Through literature, Joyce changed how we see and experience the world. His personal events on June 16th, 1904 set that great change in motion.
