

Bloom

~ café ~

James Joyce wrote a book which changed literature. 'Ulysses' follows what happens on June 16th, 1904 in the life of a man called Leopold Bloom, an ordinary man with a job in advertising, a weight problem and a straying wife. What is extraordinary is how we are brought into his mind, following his thoughts and imaginings as they unfold. Joyce used the story of this one day, and this one man, to explore the mind of everyman.
