At the Renaissance St. Louis Airport, our reception team is always seeking out the most up-to-date local information. We pride ourselves in being able to recommend indigenous St. Louis “things to do” and “places to see”.

The Renaissance “Navigator” program is company wide, and is already in full stride at each of our 145 hotels across the globe. With categories such as sip, savor, shop, and see, our Navigators will always be one step ahead of the media in connecting our guests with outlets to explore while they are in town. We try to keep our guests from going to chain restaurants or places that they could get at home, and try to create experiences for them that are one-of-a-kind, at one of our chosen St. Louis staples.

Most concierge services have helpful staff, but the Navigators, who are the face of the new program, have gone through extensive training in order to be able to seek out and deliver this caliber of micro-local information. They are either from the city their hotel is based in or possess a deep passion about their city. They are required to continuously seek out new places and experience on their own. Unlike some concierge services, the material recommended to hotel guests will never be based on previously arranged partnerships with locations that yield a financial advantage for the Renaissance property. All of the recommendations for guests come strictly from the Navigator’s personal experience, knowledge, and research coupled with the information W Cities provides.

With the launch of our Navigator program, we will provide our “discoverers” with opportunities to discover the hidden gems around the unique neighborhood of each hotel through the eyes of those who know it best. The Renaissance Navigator database and information is available for iPhone, iPad, and iPod touch users, as well as all smart phone mobile web browsers. No matter where or why you travel, there is always something wonderfully new to be found.
