

WE STRIVE TO SUSTAIN RESPONSIBLE OPERATIONS

We minimize our footprint by sustainably managing our energy and water use, reducing our waste and carbon emissions and increasing the use of renewable energy.

- Reduce environmental impacts
- Build and operate sustainable hotels
- Source responsibly
- Mitigate climate-related risk

Electric Vehicle Charging Stations

- Two electric vehicle (EV) charging stations are available and ready for use on the first floor of our garage.

Sustainable Housekeeping Practices

- Housekeepers place cards in each guestroom bathroom to remind guests to reuse towels and to place dirty linen on the floor to be refreshed.

Energy Efficient Lighting

- Guestrooms are designed to use room keys to turn on room lights to help minimize the electricity used while room is vacant.
- Meeting room lights have movement sensors, allowing them to be automatically turned off while meeting rooms are vacant.
- LED lights are used throughout the property, indoors and outdoors

Throughout the Hotel and Convention Center we make an impact!

- Recycle bins are available in every guestroom
- Recycle bins throughout public space, lobby, and meeting rooms
- Recycle program in Hotel offices
- System is automatically set up to email guests their folios instead of printing, saving paper.
- Paperless daily Marriott reporting, saving paper and ink toner.
