EXTRA SHOT OF ESPRESSO • 3

SPECIALITY COFFEE

THE ESPRESSO • 25

We make our single origin espresso extractions using split groups & 20 gram, laser cut baskets. Group pressure, time & temperature are individually profiled to the specific coffee in hand in order to deliver the optimum cup. Try our house blend or ask one of the hosts about this week's origin.

THE SIPHON • 42

The unique siphon method to create a precise cup that puts the tasting notes of some of our favourite beans at the forefront, it's a full immersion brewer that also employs a cloth filter, so you end up with a full-bodied and clean cup

THE POUR OVER • 36

The pour over style produces a cup of extreme clarity & roundness of body. Filtered water is heated to tailored temperature & added to the grounds in a circular motion & filtered down to the cup below.
