Team Building

The JW Marriott Muskoka is excited to partner with one of Canada's leading team building companies; Summit Team Building. Connect, grow, and learn together in a fun and memorable way by integrating a unique team building program or training & development workshop into your agenda. Summit programs are energizing and engaging and will foster positive relationships, rejuvenate your team, enhance team skills, and make your JW Marriot Muskoka experience simply unforgettable!

Summit Team Building

Summit's team building programs seek to find the perfect intersection of fun, adventure and shared experience, with an eye toward lasting results. Ideal for large groups and small, our programs can be a perfect energizer during a conference, a great kick off to a training day or a maintenance session to help keep your team on track.

Play it Forward

This philanthropic adventure race combines cryptically worded or photo clues, digital photography and interactive team initiatives. The more clues and locations teams find, the more funds they raise for an entrepreneur in an emerging country. Teams will be energized by competition while working towards a common goal.

Art of Team

Get that creative edge as your team produces a mosaic of collaborative artistic masterpieces. Each team member contributes unique ideas and brushstrokes. Gain appreciation for the diverse perspectives within the team!

Conquering Everest

At 8850m Everest is the tallest mountain on earth and one of the most sought after mountaineering goals. Your team will have a chance to embark on a simulated ascent of this extraordinary mountain as participants make critical decisions that will lead them to the top.

Survive or Thrive

Through a series of team challenges, this program will identify key elements that separate teams who simply survive from those who consistently thrive.

Desert Survival

It is 10 a.m. on a mid-August day and your plane has just crash-landed in the middle of the desert. You and your fellow passengers are uninjured but getting out of this situation in one piece is going to require some quick thinking and, more importantly, collaboration.

Step Up

Sometimes the best indicator of an organization's success can be measured by the impact it has on the community in which it operates. Through a series of competitive challenges, teams will earn and assemble elements of a prosthetic leg destined for one of our global neighbours.

Training Workshops

Summit Training Workshops

Summit training workshops start off experientially to demonstrate the exhilaration found in great teamwork, followed by an understanding of how and why it is essential to focus on team performance. Then, using easy to apply tools and strategies, we teach teams how to gain commitment, build trust, communicate effectively and, of course, get results.

High Performance Teamwork

Do you have a newly formed team or one that is simply looking for a tune-up? In this session you will experience high performance teamwork, understand its value and know how to intentionally achieve it at work.

Effective Leadership

Developing effective leaders is a deliberate and ongoing process. This program will inspire participants to set a compelling personal leadership vision, help them to assess their current reality and give them the tools they need for success.

Emotional Intelligence

Much of a person's success is based on their ability to be in touch with, monitor, and effectively manage their responses to a variety of interpersonal interactions. Understanding where we have healthy, under-functioning or even over-functioning qualities in various EI scales is the first step in becoming a more effective leader or teammate.

Effective Communication

It seems like a simple concept, but it often results in mixed messages, unclear directives and even interpersonal conflict. Effective communication is vital for success. In this workshop, participants learn about what works for them and why at times, the impact of their message is quite different than what they had intended.

MOTIVATIONAL SPEAKER: Scott Kress

When Scott engages his audiences with his audacious tales from his Everest climb or his trek across Antarctica to the South Pole, you will be entertained and captivated by his experiences. Challenge and change were abundant, the goals were big, and perseverance and grit to overcome adversity were needed. Scott seamlessly ties his stories into reaching professional and personal goals. The tools he used to find success in his adventures are relevant for teams to achieve high performance in the workplace. Scott wears three hats in his inspiring keynotes; international adventurer and guide, inspiring storyteller, and leadership and team training facilitator with 20+ years experience and education.
